

## What have I enjoyed?

During my time with the PCC, I learned that my opinion is heard and considered, which gave me a sense of reassurance, as I came to know that the police tries its best to get involved in and solve public's issues.

I have taken part in lots of meetings, in which I enjoyed, as I met new people and listened to their stories and learned from their experiences, as well as got the opportunity to share mine.

The thing I found most interesting so far is meeting Chief Crown Prosecutor, whom we got to ask about society's safety, and the future plans being made to ensure it, and this is a very valuable experience for me personally, as I believe that I wouldn't have found the opportunity to meet and learn from the chief crown prosecutor, if it wasn't for the CYC. I enjoy every minute and wish to complete my pathway with the CYC.
